

Deborah Harri

I got involved with the Lung Association because both of my sons suffered with asthma when they were young, and the Lung Association was a great resource for learning how to manage the disease.

I joined the board of the Lung Association in 2012 because I wanted to support an organization that had been helpful to me as a trusted source of lung health information.

I am a corporate governance professional with over 20 years of experience in the corporate governance field. I am a former executive and member of the leadership team of the Canadian Wheat Board, where I served 10 years as Corporate Secretary. I have had extensive involvement in boards and associations. I serve on the boards of Crosstown Civic Credit Union and GiftPact Foundation Inc., on the Executive of the Manitoba Chapter of the Institute of Corporate Directors (ICD), on the advisory board of NovaTuri Group Inc. and on the board and Governance Renewal Subcommittee of the Canadian Lung Association. I also provide governance consulting services to boards of directors. I am an accredited director with an ICD.D designation from the ICD-Rotman School of Management Directors Education Program. I hold a Bachelor of Commerce (Honours) degree from the University of Manitoba and am a member of the ICD and Governance Professionals of Canada.
